Vaccines: Safe or

Dr. Rima Truth Reports Vaccines: Safe or Deadly

March 23, 2014

- Host: Rima E. Laibow, MD, US
- Co Host: Ralph Fucetola, JD US
- Guest: Nicholas Gassner, Australia
- **Special thanks to Adam Crabb,**
www.TheCrazzFiles.com, for organizing

Vaccines: Safe or

**Pro Vaccine: Nicholas
Cassner**

Vaccines: Safe or

- Nicholas Gassner:
 - Works closely with individuals/caretakers in learning difficulties to maximize potential/learning capabilities.
 - Bachelor of International Relations
 - Post-graduate studies : Middle Eastern and Central Asian Studies.

Vaccines: Safe or

- Nicholas Gassner:
 - Canberra, Australia
 - Liases with children/parents/guardians to help develop reading/numeracy/fine motor/developmental skills in infants

Vaccines: Safe or

- Nicholas Gassner:
 - Twin brother required substantial hospital care
 - This coupled with the contact w/parents/children brought him to the vaccine debate
 - Passionate pro-vaxxer

Vaccines: Safe or

- Nicholas Gassner:
 - Wishes to promote positive discourse to bridge the divide between two groups that both share an ultimate objective:
 - Safety and safeguarding of children and adults from diseases that are in the process of being eradicate or have the potential to be eradicated

Vaccines: Safe or

- Nicholas Gassner:
 - Focus: positive atmosphere on very passionate and contentious subject
 - Not the aim to convert each other.
 - Opportunity to argument does not have to be toxic

Vaccines: Safe or

- Nicholas Gassner:
 - Objective of myself both sides outline core points
 - Find a mutual understanding that even if our methodologies are stark in contrast ultimate aims are not
 - Use this as a launching point for future positive discourse.

Vaccines: Safe or

- Nicholas Gassner:
 - Focus: positive atmosphere on very passionate and contentious subject
 - Not the aim to convert each other.
 - Opportunity to argument does not have to be toxic
 - Objective of myself both sides outline core points
 - Find a mutual understanding that even if our methodologies are stark in contrast ultimate aims are not
 - Use this as a launching point for future

Vaccines: Safe or

**Informed Consent: Ralph Fucetola,
ID**

Vaccines: Safe or

- Ralph Fucetola, JD:
 - Attorney
 - Health Freedom Advocate
 - Counsel and Trustee Natural Solutions Foundation

Vaccines: Safe or

- Ralph Fucetola, JD:
 - President Institute for Health Research
 - Regulatory Law Expert
 - Advocate, Educator, Author, Practitioner

Vaccines: Safe or

**Vaccine Truth: Rima E. Laibow,
MD**

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Medical Director, Natural Solutions Foundation
 - MD: Albert Einstein College of Medicine, 1970
 - Postgraduate: Child, Adolescent, Adult Psychiatry

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Drug free medicine and psychiatry 46 years
 - Clinician, Author, Educator, Activist
 - Health Freedom Advocate

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Health Freedom:
 - Each person owns his/her own body and has the right to make absolute choices about what happens to it
 - Protected by national and international guarantees

Vaccines: Safe or

- Ralph Fucetola, JD:
- Informed Consent protected by National, International law
- Cannot be abrogated by legislation or decree
- Must assert properly or right may be deemed waived

Vaccines: Safe or

Informed Consent You Must Assert It To Preserve It!

Forced Vaxx is a Crime Against Humanity

The Nuremberg Code on Medical Ethics

"...voluntary consent ...is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision." <http://www.hhs.gov/ohrp/archive/nurcode.html>

[www.DrRimaTruthReports.com/
AdvanceVaccineDirective](http://www.DrRimaTruthReports.com/AdvanceVaccineDirective)

Vaccines: Safe or

- Ralph Fucetola, JD:
- Informed Consent
 - History
 - Definition

Vaccines: Safe or

- Ralph Fucetola, JD: Vaccine Advocates
 - Are you so sure you are correct, despite shaky science?
 - Are willing to force toxins into another person's body who is unwilling to have them?
 - Since vaccinated persons shed diseases, why not quarantine the recently vaccinated?

Vaccines: Safe or

- Ralph Fucetola, JD:
 - What are you willing to do to take care of the vaccine injured?
 - How do you account for rising rates of vaccine diseases among the vaccinated population world-wide?
 - Does Australia have a program similar to Vaccine Injury Compensation Program? How much is it costing the taxpayer to compensate the vaccine injured?

Vaccines: Safe or

- Ralph Fucetola, JD:
 - What is your rate of autism? Cot Death? Childhood Cancer? Asthma? Serious Allergies? among the vaccinated/unvaccinated?
 - Should the decision to issue vaccine exemptions be a medical one or a political one?

Vaccines: Safe or

Subsequent Nuremberg Trial of Nazi Doctors. Charge: Denying Informed Consent. Verdict: Guilty. Sentence: Death by Hanging.

Vaccines: Safe or

- Ralph Fucetola, JD:
- Geneva Convention III (1949)
 - Articles 87
 - By trying, executing Nazi Doctors for violating Informed Consent of prisoners/patients, US bound itself to protect Informed Consent in US in the same way

Vaccines: Safe or

- Ralph Fucetola, JD:
- Geneva Convention III (1949)
 - Law of victor must be identical to Law applied to the vanquished
 - US is a signatory nation of 1949 Geneva Convention
 - IRB legislation contains virtually identical language to Nuremberg Code

Vaccines: Safe or

- Ralph Fucetola, JD:
- Informed Consent **MUST** be correctly preserved
- Otherwise, it is deemed waived

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Where there is risk, there must be choice
 - US Courts affirm vaccines are “unavoidably unsafe”
 - Foreign Courts Assess Damages (France, Spain, Italy, UK, etc.)

Vaccines: Safe or

- Rima E. Laibow, MD:
 - US Vax Court has paid \$3+ Billion US
 - Vaccines are 1 of 2 uninsurable risks. The other is nuclear power plants

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Articles claiming to find no link between autism
 - Scientifically Corrupt (Poul Thorsen, \$1 M Fraud)
 - (CDC Suppressed data, Thomson, others)
 - Massively Cherry Picked, Distorted studies and data for decades (see Simpsonwood Papers)

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Perhaps all these risks would make sense until you consider:
 - Vaccines do not work
 - Vaccination programs CAUSE disease outbreaks <https://andrewmaniotis.wordpress.com/vaccines-how-to-predict-epidemics-3/>
 - Vaccines cause long-term acute and sub-acute damage

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Induced Antibody Model long abandoned by immunology
 - Herd Immunity not applicable to human populations
 - Strongest predictive model of outbreaks, epidemics and pandemics is where vaccine programs have taken place

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Vaccinated populations
 - More hospital admissions
 - Higher All Cause Mortality
 - Higher Infant Mortality

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Vaccinated populations
 - More chronic disease
 - Asthma
 - Diabetes
 - Cancer
 - Eczema, atopic dermatitis
 - Etc.

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Vaccines do not confer immunity
 - “Protection Rate” Dismal
 - Vaccination Spreads Disease
 - Not evaluated for safety in pregnancy
 - Microcephaly?
 - Fetal Loss
 - Autism
 - Birth Defects

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Vaccinated populations
 - More hospital admissions
 - Higher All Cause Mortality

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Vaccinated populations
 - More chronic disease
 - **54.1% US Children Have Chronic Diseases**
 - **70% of US Adults take 5 or more medications**

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Vaccines bypass normal immune, blood–brain barriers
 - Never shown to be either safe or effective in non–deceptive trials as required by law

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Introduce Toxins Directly
 - Heavy Metals (e.g, mercury)
 - Light Metals (e.g., aluminum)
 - Halides (e.g., Fluoride)
 - Neurotoxins / Excitotoxins (e.g., MSG, Tri(n)Butylphosphate)

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Introduce Toxins Directly
 - Foreign Protein (e.g, human, insect, avian, primate, chicken, swine, dog, etc.)
 - Squalene
 - Allergens (e.g., Peanut Oil, Yeast Protein)

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Introduce Toxins Directly
 - Human DNA (e.g., aborted fetal material, cancer cells, etc.)
 - Animal DNA (e.g., dogs, insects, chickens, swine, virus, etc.)
 - Stealth viruses (e.g., Cancer-causing SV-40/ Polio, Swine Virus/Rotarix)

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Introduce toxins directly
 - **Viral Particles (e.g., HPV vaccines)**
 - **Infective Organisms (→ Vaccinated Shed Organisms)**
 - **Formaldehyde (Known Carcinogen)**

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Introduce toxins directly
 - Antibiotics (e.g, Cyclosporin)
 - Infertility Agents (e.g, Polysorbate 80)
 - GMOs (e.g., viruses, bacteria, etc.)
 - Acetone

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Introduce toxins directly
 - **Ammonium sulfate**
 - **Anti fungals (e.g., Amphotericin B)**
 - **Betapropriolactone**

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Introduce toxins directly
 - **Formalin**
 - **Glycerin**
 - **Glycerol**
 - **Hydrolyzed Gelatin**

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Introduce toxins directly
 - **Artificial Colors (e.g., Phenol Red)**
 - **Antifreeze (e.g., Phenoxyelthanol)**
 - **Potassium diphosphate**

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Introduce toxins directly
 - Potassium monophosphate
 - Polymyxin B
 - Infertility Agents (e.g., Polysorbate 20, Polysorbate 80)

Vaccines: Safe or

- Rima E. Laibow, MD:
 - Introduce toxins directly
 - **MRC5 Proteins**
 - **Sorbitol**
 - **Antibiotics (e.g., Streptomycin, Cephalosporan)**

Vaccines: Safe or

Dr. Boyd Haley
Toxicologist
Retired Professor
of Chemistry,
University of
Kentucky

"A single vaccine given to a six-pound newborn is the equivalent of giving a 180-pound adult 30 vaccinations on the same day."

 PreventDisease...

Vaccines: Safe or

- Rima E. Laibow, MD:
- US Law:
 - Vaccines **Must** be Shown
 - Safe
 - Effective

Vaccines: Safe or

- Rima E. Laibow, MD:
- **No Vaccine is Safe**
- **“Safe” Redefined**
 - Less bad than more toxic vaccines or straight Thimerosal (49.6% Mercury by weight)
 - Only 1 placebo controlled, double blind study ever done on vaccines: flu vaccine predisposed by almost 5X hospital

Vaccines: Safe or

- Rima E. Laibow, MD:
- **No Vaccine is Effective**
- **“Effective” Redefined**
 - Injection leads to production of antibodies against active agent
 - Antibodies not identical to disease–acquired antibodies and fail to provide protection against the disease

Vaccines: Safe or

- Rima E. Laibow, MD:
- **No Vaccine is Safe**
- **Vaccines Cause Disease (per CDC Websites)**
 - **Polio Caused by Polio Vaccine**
 - **Measles Caused by Measles Vaccine**
 - **Pertussis Causes by Pertussis Vaccine**
 - **Flu caused by Flu Vaccine**

Vaccines: Safe or

- Rima E. Laibow, MD:
- **No Vaccine is Safe**
- **Vaccines Cause Disease (per CDC Websites)**
- **Serious Adverse Events/Deaths Rise With Vaccination**
 - **Sudden Infant Death Syndrome (Tissue Scurvey)**
 - **HPV**

Vaccines: Safe or

- Rima E. Laibow, MD:
- **No Vaccine is Safe**
- **Serious Adverse Events / Deaths Rise With Vaccination**
 - TDaP (Microcephaly?)
 - Spontaneous Abortion
 - Paralysis
 - Autism
 - Shingles

Vaccines: Safe or

Vaccines: Safe or

Vaccines: Safe or

Table 1: Deaths of Children Under 15 Years (England & Wales)

1836-1976

Vaccines: Safe or

Table 1: Deaths of Children Under 15 Years (England & Wales)

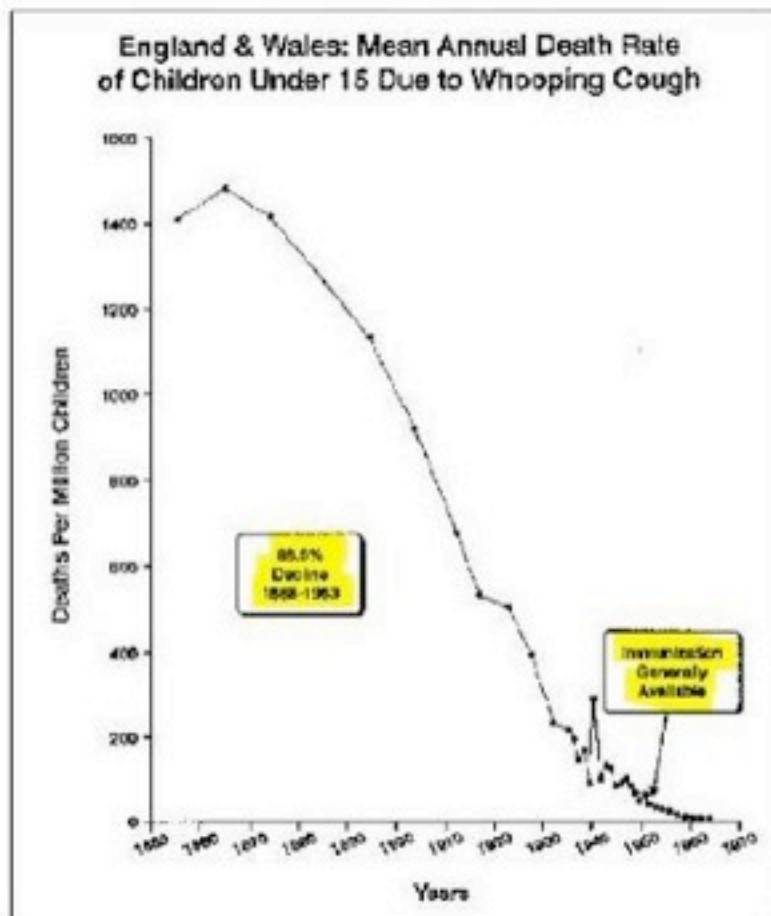

In England and Wales child mortality declined by 90% from the combined infectious diseases of scarlet fever, diphtheria, whooping cough and measles during the 90 years from 1850 - 1940.

Vaccines: Safe or

Table II: Whooping Cough (England & Wales)

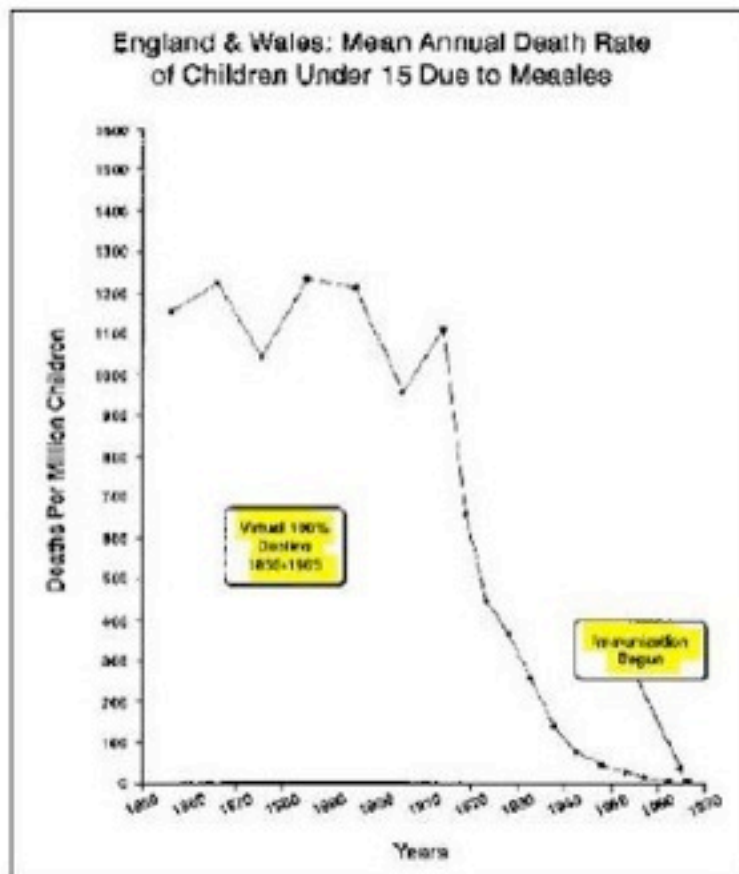

The annual pediatric death rate of children under age 15 from whooping cough in England and Wales declined by roughly 98.5% in the period covering 1868 to 1953, when the pertussis vaccine became generally available.²

Vaccines: Safe or

Table III: Measles (England & Wales)

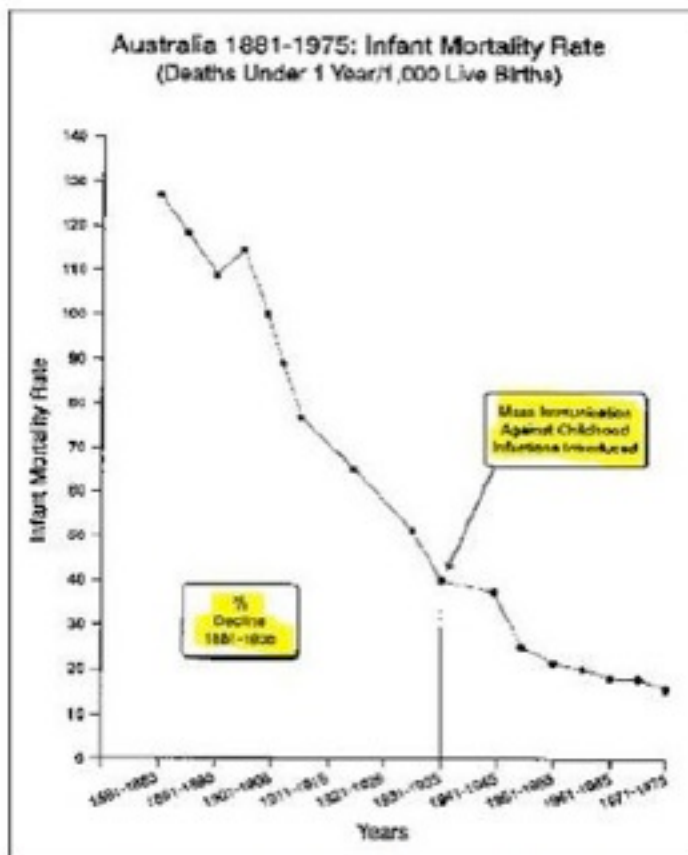

The annual death rate of children (under age 15) from measles in England and Wales declined from over 1,100 per million in the mid-nineteenth century, to virtually 0 by the mid 1960's prior to immunization.³

Vaccines: Safe or

Table V: Infant Mortality Rate (Australia)

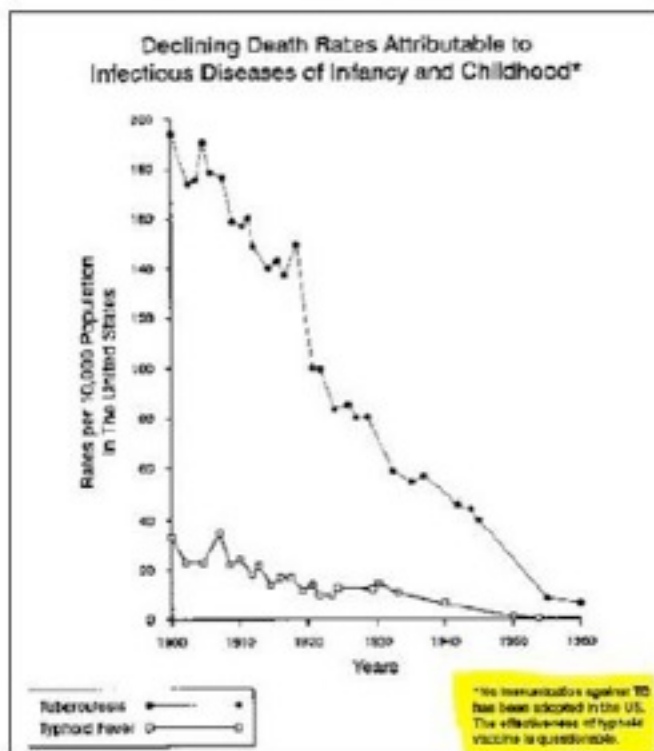

Approximately two thirds of the total decline in infant deaths from all childhood infectious diseases in Australia in the period covering 1881 to 1971 occurred before the introduction of mass immunization efforts.⁵

Vaccines: Safe or

Table VI: Declining Death Rates (US)

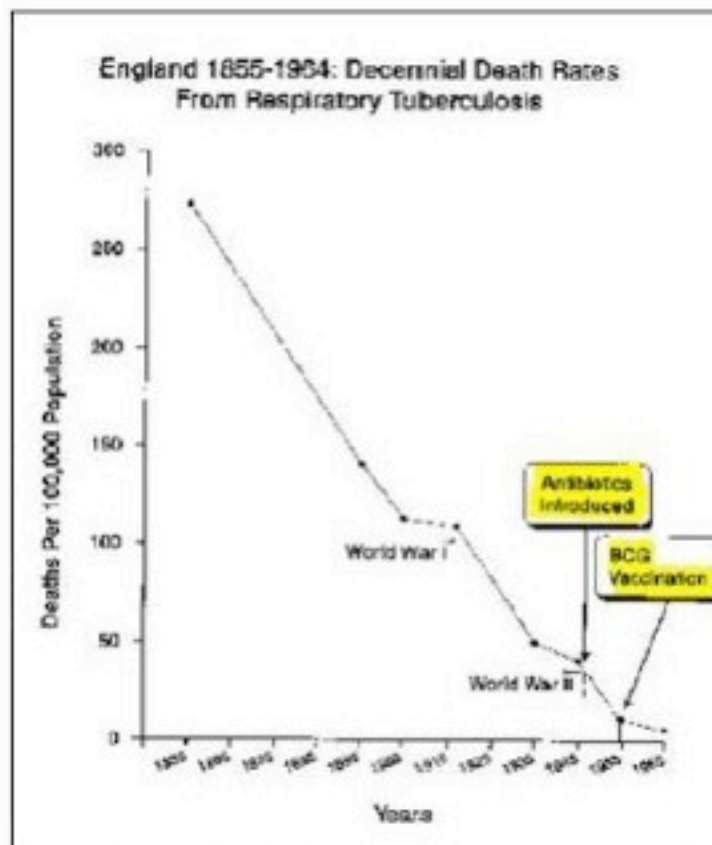

In the United States—without benefit of any vaccine—the tuberculosis mortality rate underwent a drop of roughly 96% in the first 60 years of the 20th century and that in slightly less than the same time span (although the effectiveness of the vaccine has been seriously questioned by reputed scientists) mortality from typhoid vanished.⁶

Vaccines: Safe or

Table VII: Declining Death Rates (England)

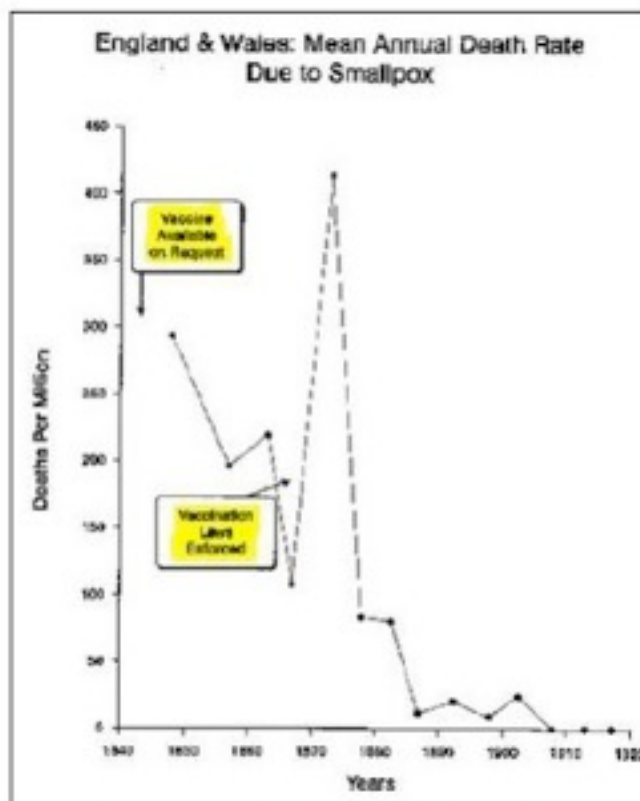

Death rates from respiratory tuberculosis in England underwent a roughly 87% decline in the period between 1855 and 1947 when antibiotics first came into wide use. A further decline of nearly 93% by 1953 preceded the introduction of the BCG vaccine.⁷

Vaccines: Safe or

Table IV: Smallpox (England & Wales)

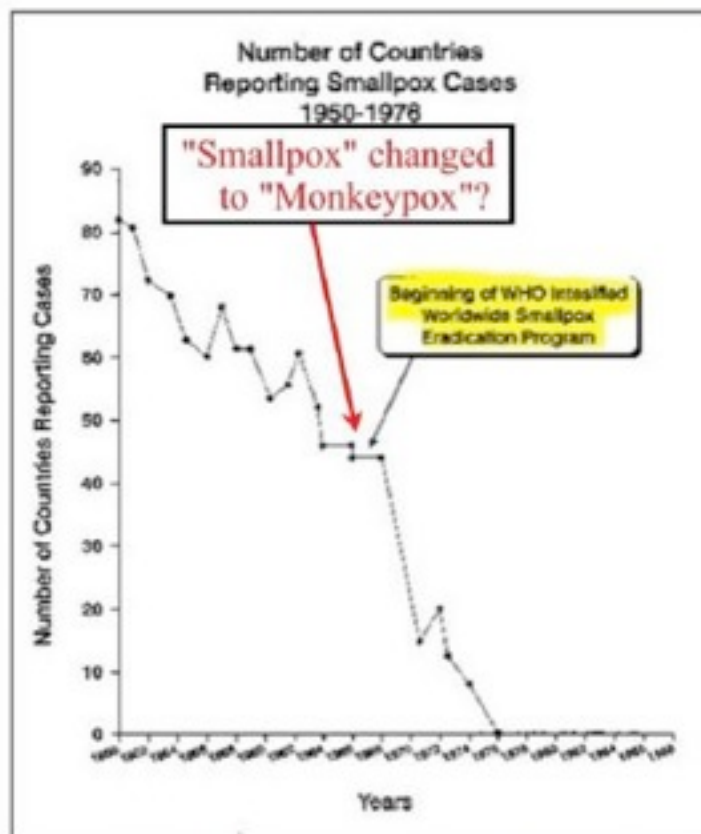

There was a continuing decline in the annual death rate from smallpox in England and Wales with a reduction in mortality of roughly 300 per million to virtually 0 in the 60 year period following the middle of the 19th century. This table further illustrates that the progressive rate of decline was severely disrupted—with a roughly 275% increase in mortality from the disease—occurring immediately after smallpox vaccination laws were enforced by the British government.⁴

Vaccines: Safe or

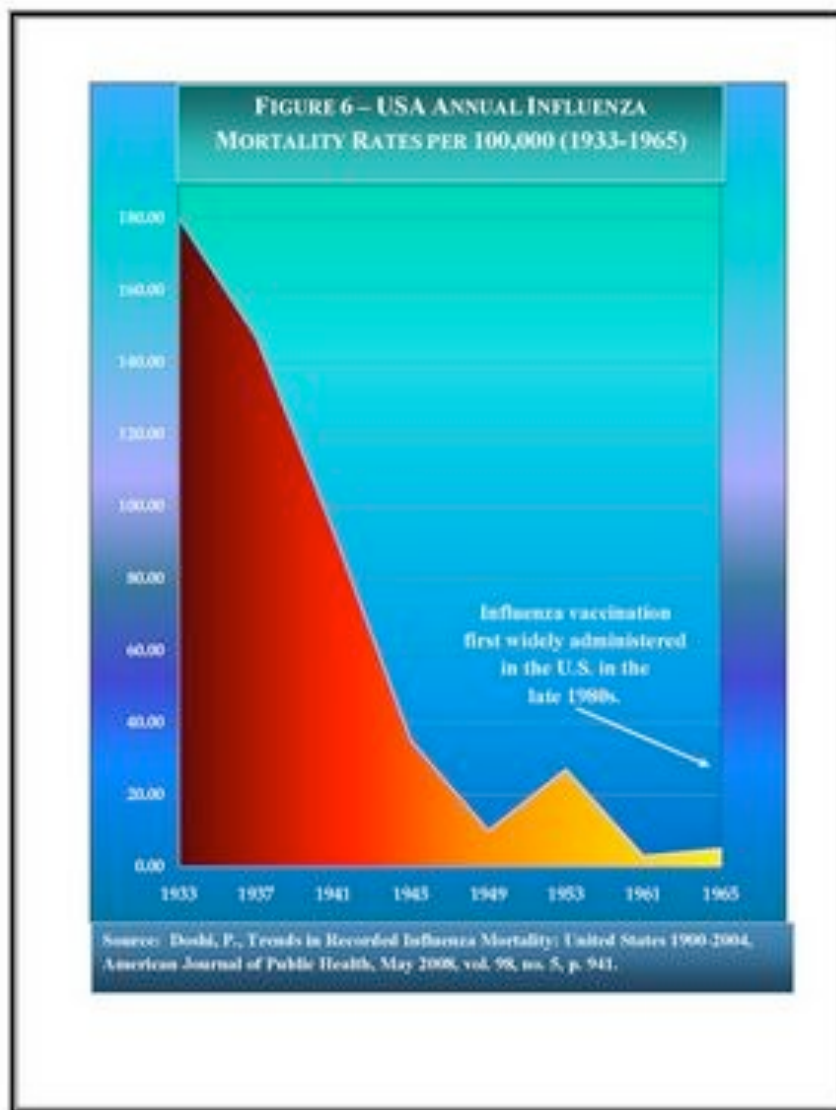

Table VIII: Number of Countries Reporting Smallpox

During the 17 year period preceding the WHO Smallpox Eradication Program, a progressive drop to nearly one half occurred in the number of countries reporting smallpox morbidity.⁸ In the following years, reported small pox cases rapidly dropped to zero.

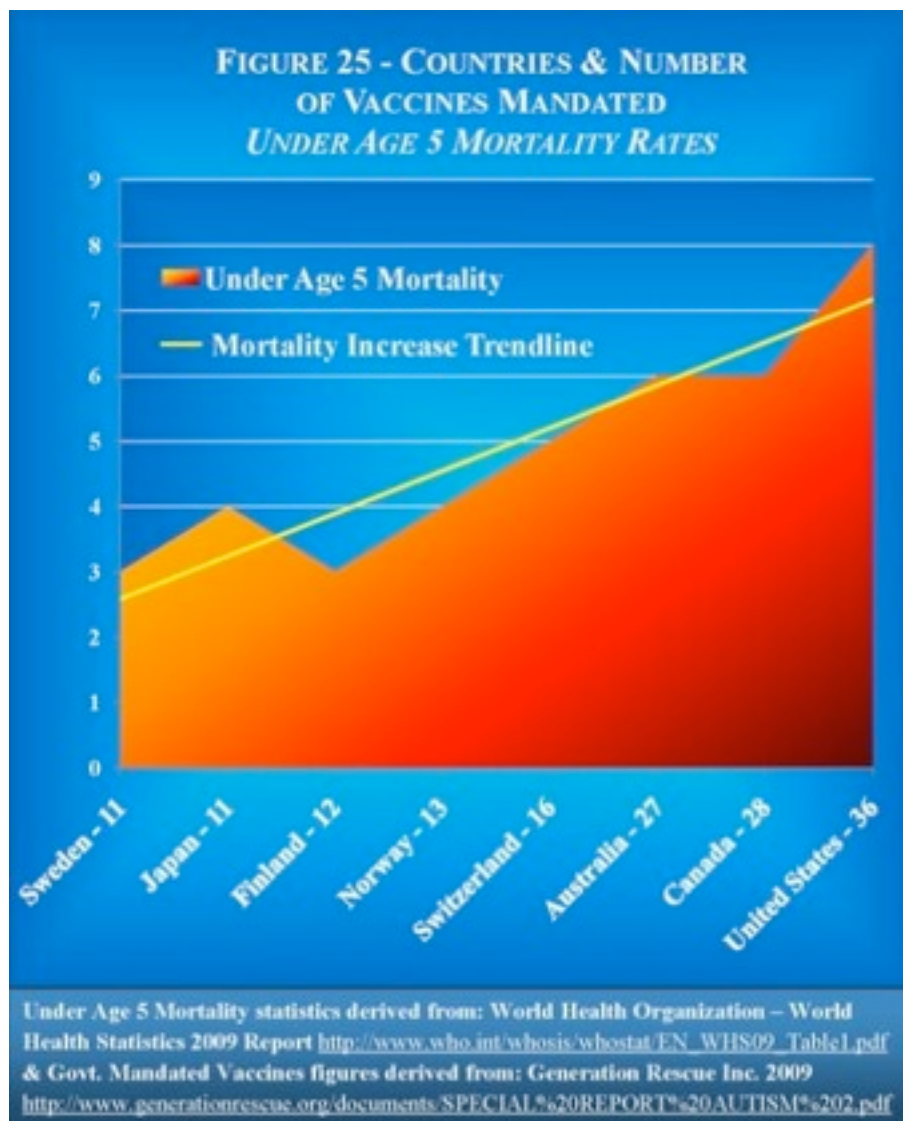

Vaccines: Safe or

Vaccines: Safe or

Vaccines: Safe or

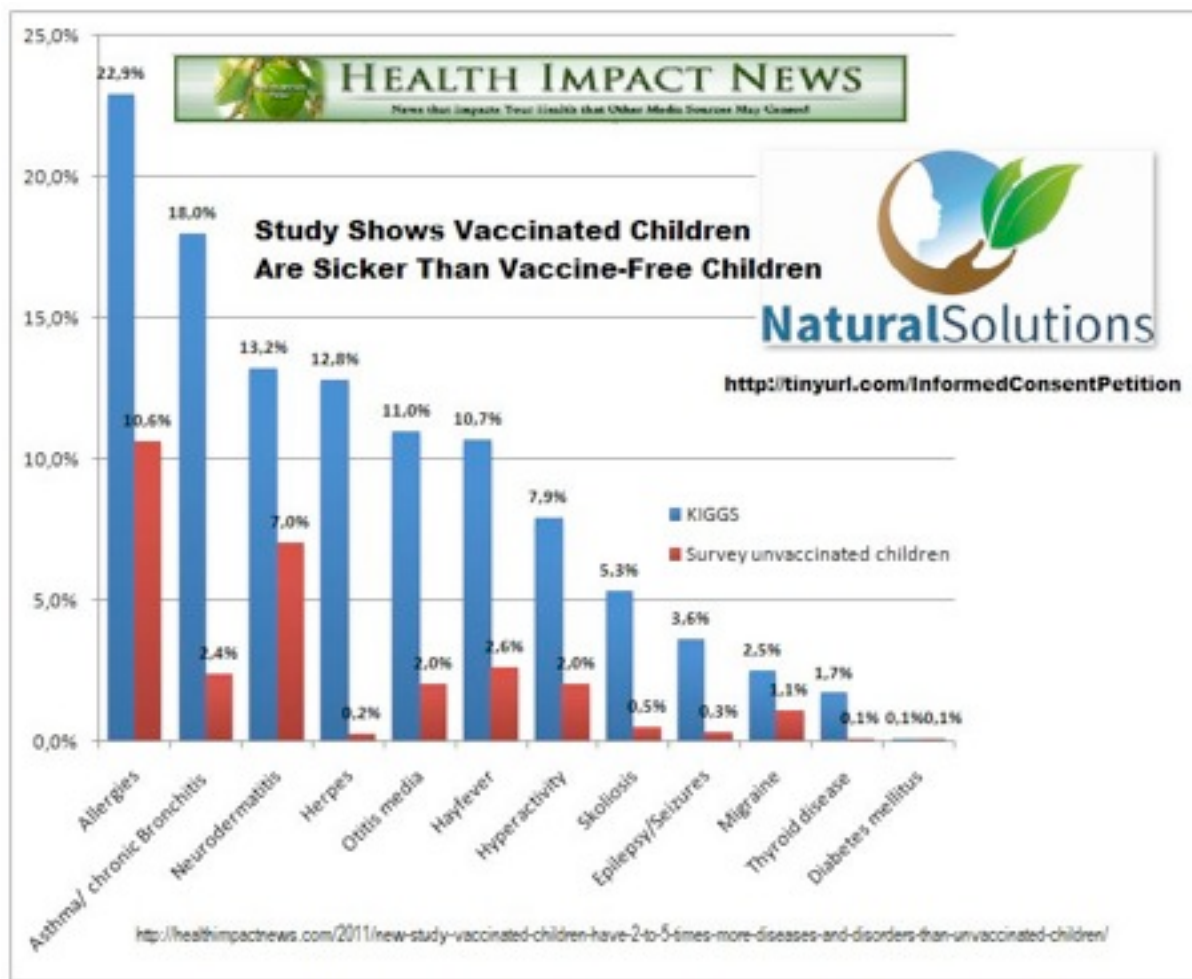

Other disorders and diseases

As we included open questions in our survey we evaluated the prevalence (of the first 10070 participants) of some other disorders and illnesses. Unvaccinated children show very low prevalences of the following disorders:

Dyslexia	0,21%
Speech delay/articulation problems	0,38%
Sensory Processing disorder	0,28%
Anxiety	0,25%
Depression	0,12%
Bedwetting	0,12%
Celiac disease	0,12%
Gluten sensitivity	0,41%
GERD (Gastroesophageal reflux disease)	0,06%

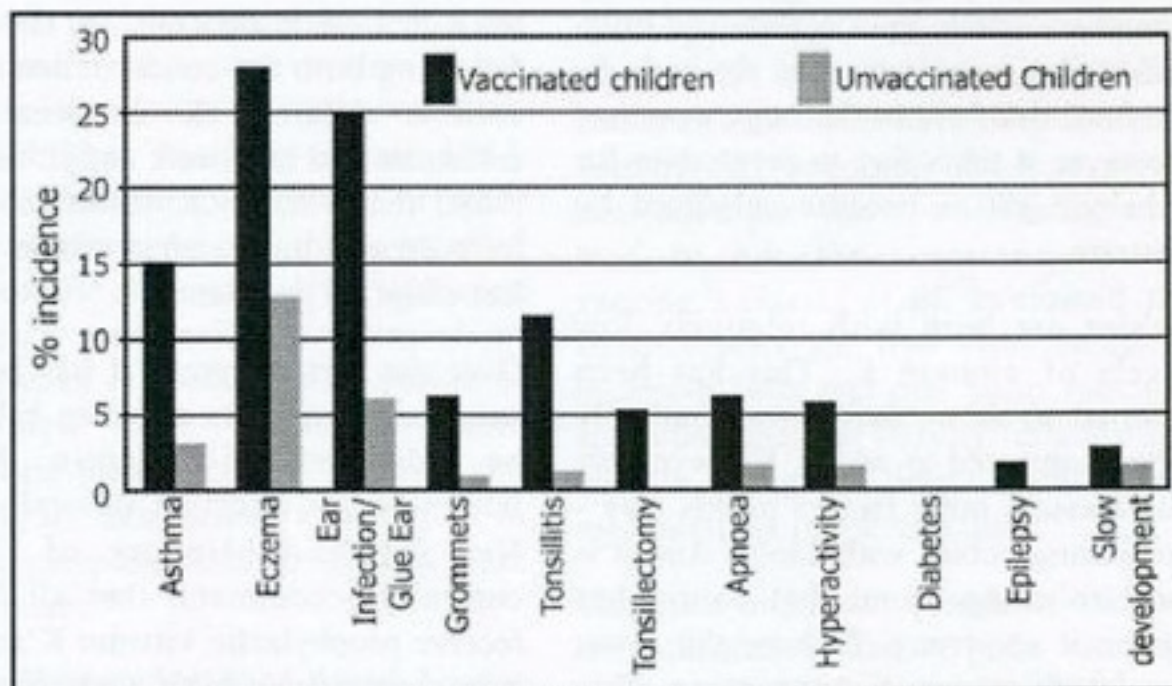

Vaccines: Safe or

Vaccines: Safe or

A graph of the incidence of each of eleven chronic childhood conditions in vaccinated and unvaccinated children expressed as a percentage of the total vaccinated and unvaccinated children surveyed.
