

The following evaluation is a Sonograph Vocal Profile developed from the research tenets of Human BioAcoustics. The software used for this evaluation is available to the public from [www.nanoVoice.org](http://www.nanoVoice.org) at no charge. **Profiles are presented here in the hope of sparking discussion and insights.** All issues are expressed in term of Frequency Equivalents™

I THINK IT IS IMPORTANT TO POINT OUT THAT THE STATEMENTS BELOW ARE FROM A COMPUTER

## Brett Kavanaugh - **COMPUTER PRINT OUT**

Recording Date: 09/25/2018

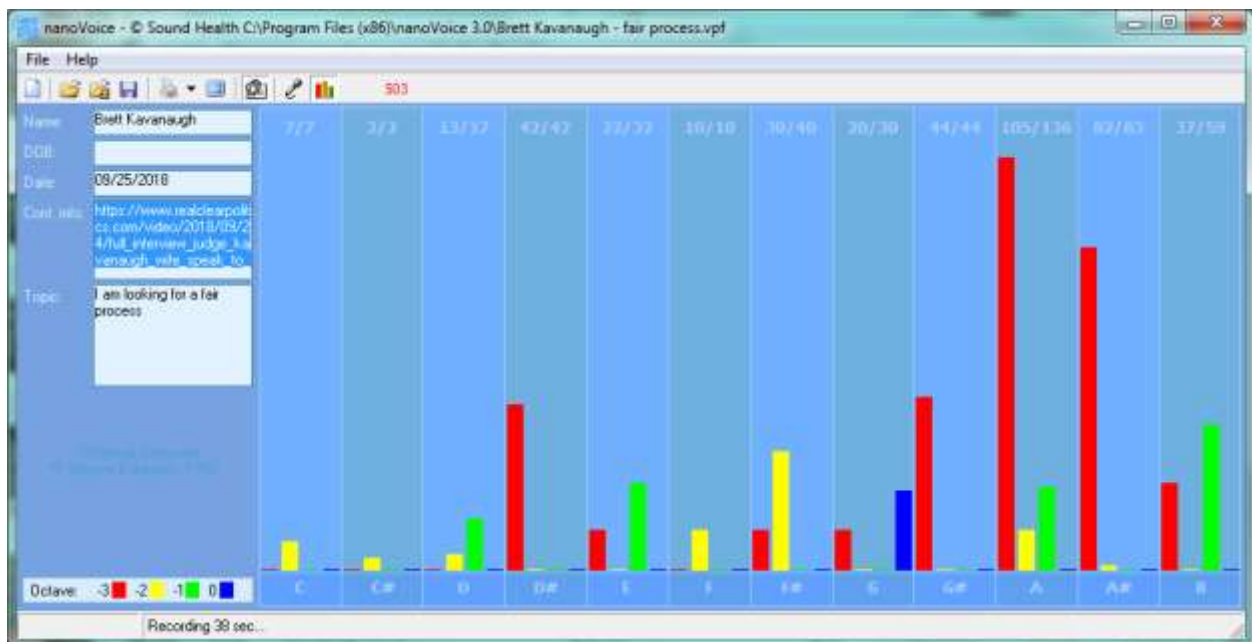

Subject/Topic: "I am looking for a fair process"

### Points of Importance, Attention and Consequence

Your reputation is very important to you. You will go to great lengths to protect it. You think that feeding the mind is just as important as feeding the body. You are aware of how painful thoughtless words can be. You can be fussy about your physical space. It needs to satisfy you and no one else. Sometimes you spend a lot of energy trying to get even the smallest detail right the first time.

Your highest note is associated with your internal perspective of insight and self-awareness. Internal faith, fairness and fulfillment reside with this note. Your highest note is associated with your internal perspective of service to self vs. humanitarian needs. The spirit of your inner core resides with your ability to take quiet time for yourself. Your highest note is associated with the expression of physically prioritizing. Personal control over what happens in your physical environment resides with this note.

You don't always express your sense of confusion to the appropriate person. Your leadership ability is hampered by lack of opportunity. Thinking about an action is not the same as doing it, so go ahead and send that little gift, card or note.

### Points of Communication, Complications and Complaints

You can easily put yourself aside for the benefit of others. You take pleasure in changing things for the better. You actively seek to bring spirit into your interactions with others.

It is hard for you to understand why people take your peaceful nature as being an easy target. As a natural leader, you sometimes get stuck with more than your share of the work. You can be very hard on yourself - taking blame or responsibility needlessly.

STATEMENT OF FACT: The information herein contains opinions concerning correlations between personality traits and frequencies found within the voice. The computer printouts are generated by a computer using fast Fourier transforms and voice spectral analysis developed by the Institute of BioAcoustic Biology – a non-profit research organization: SoundHealthOptions.com – 740-698-9119.

Manual interpretation/opinion by Sharry Edwards, MEd, pioneer of BioAcoustic vocal profiling

- More specific indications include: Strongest perspective = spiritual through many perspectives – feelings/control/
- A tiny bit scattered but balanced with the exception of obvious spiritual pain
- Lacks ego
- Great balance between perspective and action
- He absolutely knows he is innocent
- His words are meant to accomplish something physical – as a tertiary goal, not as a primary
- First goal is spiritual balance
- IS HURT SPIRITUALLY,
- One tiny speck of naiveté dealing with his physical position

**Disclaimer: Human BioAcoustics as pioneered by Sharry Edwards, MEd is a science in development. Vocal Profiling is as much art as science and is subject to individual interpretation, although the Vocal Profiling Print-Out is generated automatically without human intervention. For informational and educational purposes only.**

## Vocal Profiling Note Correlate Chart

Thank you for taking the opportunity to experience the nVoice™ Personality Profiler computer program. As you speak into the microphone, the computer will catalog your words into musical notes and patterns. Your print-out will reflect the twelve notes of the musical scale – C, C#, D, D#, E, F, F#, G, G#, A, A# and B; plus the octave(s) in which you speak. The notes, octaves and general architecture of your vocal graph are used to create a computerized nVoice Personality Profile for you. Each of these notes has general characteristics which are explained in the chart above.

Remember that each written report will reflect what you say as

The database used for your analysis has been developed over the last twenty-plus years

as we collected data. We would appreciate feedback as to how you think your profile matches the REAL you.

For this particular type of vocal profiling, your emotions can greatly influence the outcome. If you would like information about a variety of subjects, take several voice samples; keeping to one subject for each profile. Every print-out will be “flavored” by the subject you talk about.

You may find conflicting statements on your report. This indicates that these same conflicts reside within your own personality. As you talk about different subjects you will be able to determine the conflicts and joys of each subject.

If you doubt the accuracy of your nVoice Personality Profile, ask a friend who will tell you the truth about how you are perceived by others.

If you print your report in color, there is a possibility that you will have one or more of four different colors on your chart- blue, red, yellow and green. Multiple colors on one chart indicate a multi-faceted approach to that subject.

Blue is indicative of an overall love for humanity, the ability to put others first, an emotional perspective and possible naiveté. A nun or minister type who gives more than they receive.

Yellow is indicative of mental processing, an intellectual outlook, a logical, cautious perspective. A lawyer type who can see all sides and acts depending on the desired outcome.

Green indicates a need to accomplish, someone who can plan ahead, appears reliable and is ready to go after careful thought. A Farmer type; on the negative side a con man.

Red is indicative of a physical call to action but without a lot of thought for the consequences of the action. Red likes to see and do things first before the rest of the crowd. A Fireman type who can assess a situation quickly and act accordingly.

Each note needs to be matched with a color and its interpretation.

For example someone could have a very high note of C that was red – this person might use his/her ego or strength to get their way without much thought for the outcome. A bully or autocrat.

If the same high C was green that person might use their first-hand experience to manage getting something accomplished. A leader by qualifications alone who may or may not have many people skills. A workaholic who has little respect for the time commitments of others.

If the high C was yellow the person might want their way because of their education or position. They tend to think they knew best for everyone involved. There is

usually a disregard for the opinions of others with this politically astute yet authoritarian perspective.

If a high C is blue this is likely to be an emotional leader who champions a cause for the rights of others. This is not always a logical or rational leadership style but more of a charismatic approach. An uncompromising extremist.

Each note can be assessed using the color and note information. Remember that the examples above are for extremes of a note being well above normal.

Nothing is wrong in your voice; it is what you do with the information that is important. This evaluation is by no means inclusive. It serves to provide a perspective about you as it relates to your topic you chose.
