QUESTION:

Get in line.

Don't get too close.

Wear a mask.

No one should see you smile.

No eye-contact.

And certainly, NEVER visit a loved-one in hospital or hospice. *Dying frightened and alone is the new normal.*

**Remember 'The vaccine will save us.
Then we can go back to normal.'**

You get the message, don't you?

Keep asking, “Does this make sense?”

Demand REAL scientific validation for everything you are being told by main stream media, health care workers and politicians. Maybe they believe what they are told, maybe not. You shouldn't.

THINK!

Quarantine = More Sick People

Healthy immune systems *need* sunlight, plenty of oxygen, good food, good mood and social contact. Quarantine threatens all of these, compromising immune systems and guarantees more illness for everyone.

OOPS! New York Lawyer Need a Lesson in the Law

“Every human being of adult years and sound mind has a right to determine what shall be done with his own body; and a surgeon who performs an operation without his patient’s consent commits an assault for which he is liable in damages.”

The universal right of Informed Consent has been the law for well over a century, starting with a famous New York case in 1914 (decided by Judge, later Justice Cardozo) holding that it is an assault and battery to engage in a medical intervention without Informed Consent, even if the intervention was intended to benefit the recipient.
