“Informed Consent is

the 21<sup>st</sup> Century”

Major General Albert  
N. Stubblebine III  
(US Army)  
1930 - 2017

In 2004, Maj. Gen. Albert N. Stubblebine III (US Army) and I closed my practice of drug-free medicine and psychiatry to help cure the Body Politic of what may be a terminal illness

The Body Politic is ill

The illness may be terminal

The illness is exogenous, not  
endogenous

The illness is disseminated, multi-  
system and multi-focal

Allopathic (symptom suppression) treatment, which does not address the underlying cause of the illness, may increase comfort but cannot forestall the terminal course of the disease

As in all holistic treatment, only a strategic/systems approach, identifying and focusing on the underlying cause of the illness, offers promise for successful treatment and cure

Conclusions:

5. International organizations and agreements have been crafted and created to fulfill the goal of total conquest of the planet by self-appointed “*ubermenschen*”

# World War: the Final Years

Conclusions:

7. We are approaching the hoped-for conquest and destruction of humanity – from our genes outward – into a bio-neuro-techico-spirituo subjugation and slavery consciously catalyzed via late 19<sup>th</sup>, early 20<sup>th</sup> century predatory philanthropy, continuing into the present

# World War: the Final Years

Conclusions:

8. WHO was created to be, and serves as, the primary engine of destruction through which the 140+ year plan of total world domination is to be achieved

# World War: the Final Years

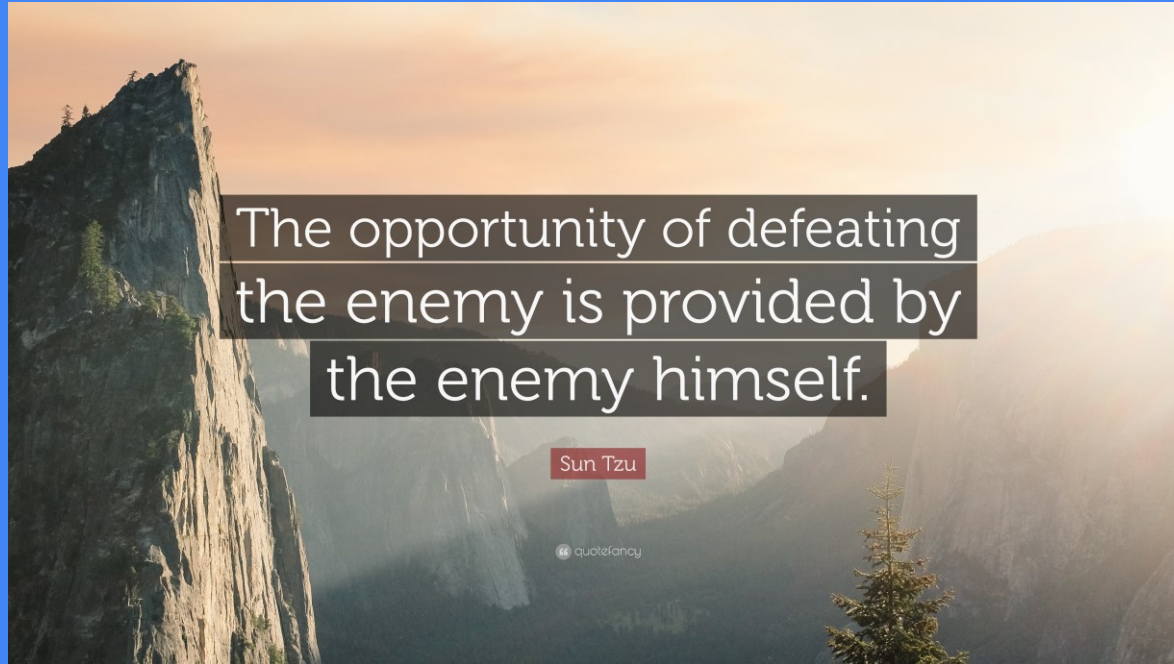

Conclusions:

9. No reform or negotiation is possible within that body and its associated structures: any nation which wishes to survive has no choice but to exit the amalgamated bodies and structures, reorganizing under its own sovereignty
